Ocean Explorers *Executive Brief*

Ocean Explorers provides marine education / research facilities and expedition logistics for oceanographic operations any time, any place

Henry L. Tomingas, President 907-783-1221

- With a wide range of oceanographic vessels and coastal access craft we can custom fit your needs, call us
- Ocean Explorers ships, crews, staff and logisticians offer a flexible variety of powerful platforms to conduct scientific and educational ocean related studies and symposiums
- Ocean Explorer as one of the largest charter vessel companies in the Western United States has maintained an exemplary history of safe, successful operations under all types of conditions for over 25 years
- Expedition logistics and support can be tailored to your project needs from your front door, to ship, site, shore and back again, year around
- Ocean Explorers expeditions have included migratory bird counts, harbor seal tracking, zooplankton studies, environmental impact research, river surveys and tidal studies
- Operations have included rescue, construction and reclamation in remote, hostile, and extreme environments
- High safety standards are maintained in all phases of an expedition as documented in the extensive Ocean Explorers HSE Plan resulting in an unmatched safety and on time delivery record for 25 years

R/V BERING EXPLORER

Document #272796
Length 132.0'
Beam 32.5'
Draft 4'
Call Log # 9414
Torque 19,000 ft
Deck Strength 3
Travel 15' reach
Bow Thruster (right & left)
5 - 7 Knots
Steel hull: Ice Strengthened
Safety equip: USCG Spec
SOLAS 25P Raft
Keel cooler
7 State Rooms 30 Passengers

Support Craft & Logistics

M/V Wilderness Explorer

Multi-use Research
Length: 112 Feet
Width 22 Feet
98 Grt. Tons
9 Knots
31 Passengers
16 Cabins with Portlights
US Hull
U.S. Coast Guard Certification
Hydraulic Swim Step
Upper Deck Crane
Shallow Draft
Observation Deck
Multi Engine for Reliability & Safety
Kayak Fleet Facilities
Highly Stable & Reliable Platform
